

2010 ICNF Islamic Education Series

Title: **The Sacred Scrolls**

Description: This course is an introduction to those sciences of the Quran (Uloom-ul-Quran) and Hadith (Uloom-ul-Hadith) that help understand and implement the Quran & Hadith.

Objective: The **1st objective** of the class is to introduce students to the different sciences that make up Uloom-ul-Quran. Each science is meant to be studied on its own and hence this class will only introduce each subject to the students. Insha'Allah the introduction to the subjects will develop a drive in the students to further research and study each science in detail. Some of the topics of Uloom-ul-Quran are mentioned below.

1. *Tajweed* (pronunciation)
2. *Qiraat* (different methods of reciting)
3. *Asbaab-an-Nuzool* (causes of revelation)
4. *Rasm al-Mushaf* (writing the Quranic script)
5. *Ahruf* (different forms of revelation)
6. *Naasik wa al-Mansookh* (Abrogated rulings/verses)
7. *Classification of it's verses*
8. *Ijaaz al-Quran* (the miracle of the Quran)
9. *Tafseer* (interpretation of the Quran)
10. *Iraab al-Quran* (grammar of the Quran),

The **2nd objective** of the class is to introduce students to the different sciences that make up Uloom-ul-Hadith. Insha'Allah the introduction to the subjects will allow students to gain an appreciation of the hadith and the efforts taken to preserve them. The two main sciences of Uloom-ul-Hadith are:

1. Mustalah al-Hadith (Classification Of Hadith)
2. Rijal al-Hadith (Study of the Reporters of Hadith)

Duration: 4 Weeks

Day/Time/Location: Every Tuesday @ ICNF after Isha.

Audience: Brothers & Sisters. Suitable for Adults & Young Adults (8+).
